

# LIFE ARMOR DNA NRG™

Age Younger, More Energy, Less EMF Stress  
Effortlessly Improve Health and Function!

***“This works 100% of the time, on 100% of the people tested, instantly!”***

***--Dr. Sadeo Omata, PhD Japan University***

**We are on a mission of contribution to health and humanity.** Introducing our unique, effective, energy health solutions, for the first time to the U.S. **We need your help!**

**Energy Medicine has existed for thousands of years** in other countries, though not included in U.S. medical curriculum. Now Acupuncture, for example, one form of energy medicine, is accepted by the AMA as complimentary therapy.

**We are electromagnetic beings** subject to energy blockage, electrical and magnetic signal interference (EMF), and energetic deficiencies impacting function.

**Life Armor DNA NRG™, in many ways performs like acupuncture**, to help immediately resolve the symptoms of energy blockage or deficiency in the body. But unlike acupuncture, Life Armor is a 24/7 lifestyle appropriate solution for continued relief and optimized function.

**Many stubborn health challenges are impacted by energy blockage or deficiency.** We all experience lack of ideal energy function **as a result of injury, illness and ageing.**

**Life Armor DNA NRG™, a 30-year proven breakthrough in energy medicine, based on Nobel Nominated work in the area of Waveform Genetics**, assists the body to naturally overcome the symptoms of bioenergetic blockage or deficiency and restore function.

**Life Armor works by introducing more of the body's own recognized DNA information and energetic resources, resulting in Biofield Enhancement.** This unique noninvasive approach often produces clinical phenomena of immediate and long-lasting favorable response (more energy and less stress), improving over time and with no contraindications.

**In short, Life Armor DNA NRG™ contains bioidentical thriving state signals**, directing the body to once again perform in a more thriving state of being, as before the body was compromised by injury, illness or ageing. The body will immediately hold this state of enhanced wellbeing and function, lasting as long as the Life Armor DNA NRG™ signal is present. View results and learn more at: [lifearmorlabs.com/science](http://lifearmorlabs.com/science)

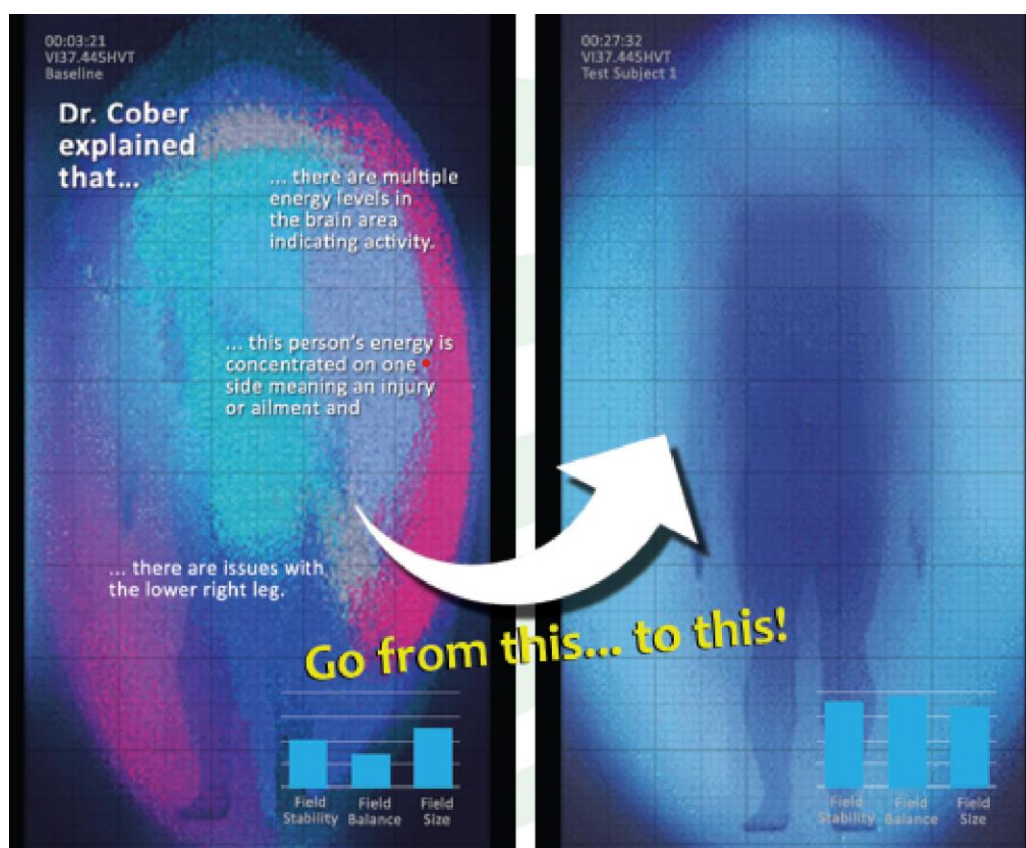

**Life Armor DNA NRG™ (information) may be delivered to the body via wave forms in liquid, light, sound, scent, direct contact, inaudible frequencies, electrical and magnetic fields, and via the body's biofield (NIH biofield).** Meaning virtually any product from accessories to appliances, cosmetics to clothing, to electronics to supplements to beverages to paint can become “Life Armor Enhanced”. Providing 24/7 lifestyle solutions for people, pets and plants to live in a more thriving state, regardless of age and regardless of today's current toxic tech environment. **Live optimized, energized and protected with Life Armor enhanced solutions. Join Us! Shop and learn more at: [www.LifeArmorLabs.com](http://www.LifeArmorLabs.com)**

## LIFE ARMOR DNA NRG™ Test Results: Biofield Enhancement (Immediate)

Subject connected to full body electrodes, measuring voltage depicted on screen

**Life Armor Enhanced Music induced this immediate shift**

**All forms of LIFE ARMOR DNA NRG™ Produce same result!**

**Before: Compromised**

**vs.**

**After: Optimized**

**LIFE ARMOR DNA NRG™ induced biofield energy enhancement.** Supports the body's natural defenses, like a force-field of protection, from interfering external stressor wave forms (EMF, 5G, Etc.). Resulting in Immediate down regulation of stress hormones (adrenaline and cortisol) and return to homeostasis, from chronic sympathetic dominance "fight or flight" state. Often triggered by ever-present environmental stressors. LIFE ARMOR allows the body to become the blocker of all external wave form stressors. The body experiences enhanced resources, utilized to upregulate function.

\*Research has shown the body chooses to utilize the additional resources based upon the body's innate intelligence to overcome recognized health challenges. Meaning results are similar though may vary by individual.

## The LIFE ARMOR DNA NRG™ Story

**After 5 years of exhaustive research in wave form genetics, mathematics, cymatics and quantum physics, our scientists gave up trying to match the formula of the human genomic code.** They said, “humans are so complex, there are millions of frequencies and resonances, maybe we are just not supposed to be able to do this.” They had previously cracked the code for plant and pet DNA resulting in induced growth, health upregulation and longevity. But without a perfect match for sender and receiver information all previous attempts proved biologically inactive (didn’t work). Like a remote control for a television, if the receiver does not recognize the signal of the sender, nothing happens.

**Six months after giving up, one of the scientists had a DIVINE ENCOUNTER,** and was provided with the missing keys to a massive mathematical equation, that proved to match the formula for human DNA! A natural string instrument was created that did not exist in this realm. When played, that instrument made a tone, that made a vibration, that made a wave carrying the matching code to us! When that “information” comes in contact with the body, it’s received as more of the body’s own resources, inducing a more thriving state of being. The previous before and after image occurred when the first note of music was played, inducing immediate biological responses.

**The license for this breakthrough was purchased by a wealthy Japanese businessman and kept in Japan for almost 30 years,** where the product line amassed 70% market penetration, due to Japan’s advanced cultural appreciation for energy health solutions. Now for the first time LIFE ARMOR DNA NRG™ is back in the USA where discovered and available in multiple forms, from stealth health optimizing accessories, to clothing and applications that transform health harmful devices (phone, home and auto) into health optimizing devices. This unique gift may be your hope for a healthier, biologically younger, more thriving state of being, and with no behavioral modification.

### LIFE ARMOR DNA NRG™ Example delivery applications:

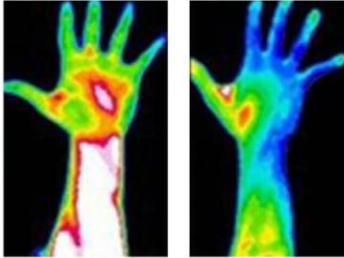

## Thermographic Inflammation Study: Dr. Jeannine Stryker, M.D.

*"When compared to the baseline images of all the test subjects, there appears to be an immediate decrease of hyperthermia and inflammation. Such swift shifts are not a normal event. Based on the controlled environment of the study, I would say the Life Armor technology directly contributed to the inflammatory improvements."*

### REDUCED INFLAMMATION

Jeanne Stryker, PhD  
Clinical Thermography Studies

"It changed in a quick manner, this tech is phenomenal."

### Kathy Markham, Certified Clinical Thermographer

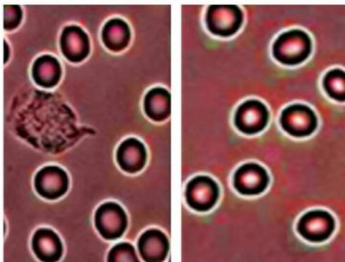

*"I have been conducting thermal imaging for approximately two years and have completed close to 300 thermograms. I believe it takes 90 days for the healing process that is, cells to evolve, in the body. I have never seen such extraordinary changes while doing thermograms that demonstrated an immediate healing process as I saw after the Life Armor technology was introduced."*

## Darkfield Microscopy Blood Analysis Study: Dr. Mick Hall, PhD

*"The Life Armor Pendant appears to act like a "tuning fork" initiating a state of enhanced vitality. If you keep the body exposed to this higher energy over longer periods of time, your body will clear toxins, increase vitality and live in a state of higher health quality."*

### BLOOD DETOXIFICATION

Mick Hall, PhD.  
InnerActive Nutrition Research Facilities

"Slows down the signs of aging, promotes state of balance and well-being."

### Mick Hall, PhD

*"With all subjects tested in this pilot study who wore the Life Armor DNA NRG Pendant, as compared to baseline testing, there was a significant enhancement of tissue vitality, a consistent pattern of physiological stress reduction, and an increase in lymphatic activity, resulting in an initiation of detoxification processes, indicating several beneficial physiological responses due to the Life Armor technology."*

## Biofield Enhancement Study: Dr. Lisa Tully, PhD

*"Results of this pilot study indicate that the Life Armor DNA NRG technology significantly increases the human biofield, as measured by the Gas Discharge Visualization (GDV) Technique. In addition, the organ system function was significantly improved, as measured by the GDV Technique."*

## Electromagnetic Radiation Study: Dr. Lisa Tully, PhD

*"The results of this study show that applying Life Armor Technology reverses the deleterious effects of EMR exposure, as measured by blood pressure. Furthermore, Life Armor Technology improves health, as measured by HRV, in the presence of EMR. Based on this pilot study, Life Armor Technology is recommended for protection from EMR exposure."*

**30+ Years of Irrefutable Scientific Research**

**Validating immediate and beneficial upregulation of function**
